PEREGRINE'S LEAN GENERATION TRAILER *Falcon II*

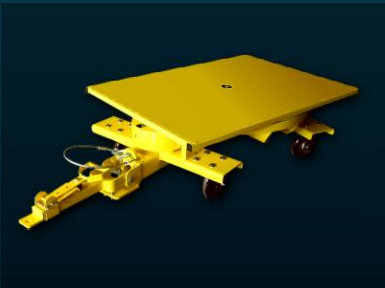

Modular Design

One chassis receives a host of superstructures, allowing complete and cost-effective adaptability for your ever-changing material handling requirements.

Manual Position Friendly

Simply by locking the tongue in the vertical position, the Lean Generation Falcon II converts into a conventional caster-steer trailer, allowing operators to easily position loads where other trailers fear to tread.

Unsurpassed Tracking Ability

utilizing the proven Peregrine Tracker Design. Absolute minimal aisle and floor space required for maneuvering.

More detailed information on the Falcon II will be posted on our Web site, including high-resolution images and an impressive video of what the Falcon II will do for your operation. Please visit us at www.peregrine-inc.com.

Call us toll-free at 1-800-777-3433 for additional information on this and other products, like the successful Quad-Steer Tracker™ positive-tracking trailer. Our team of professionals will be happy to assist you in finding the precise solution to your material-handling requirements.
